Course: **Traffic Stops, the Law and Court**

This 16 hour course is taught by nationally renowned instructors L.E. “Ted” Wilson, (35 years Harris County Special Prosecutor, author of numerous TDCAA instructional manuals, prosecuted numerous high profile cases, and is consultant with state lawmakers) and Mike Bryant(25 year veteran and manager with ATF, veteran polygraphist, psychology, human behavior, deception detection, false confessions, and elicitation of investigative and intelligence information necessary to facilitate development of one of the most innovative and progressive methods of interviewing known. He was recognized and rewarded for his efforts with receipt of his agency's distinguished service award).

This training program is an interdisciplinary study designed to mirror the actual cognitive processes of law enforcement professionals during traffic stops. This program will integrate training on Investigative Interviewing and Advanced Search & Seizure for the first-line officer with traffic enforcement responsibilities. There is no question that the effectiveness of any prosecution beginning with a traffic stop depends entirely on the legality and the quality of the initial police encounter. This training will provide a complete and thorough understanding of the 4th Amendment and its application to traffic stops as well as enhancing each officer’s interpersonal communication and interview skills, including the detection of deception, necessary to maximize the collection of accurate and critical information at the roadside.

The second day of this class will be Mock Suppression Exercises, (mock court) with the students provided actual traffic or enforcement scenarios resulting in rulings involving recent court decisions. The student will be placed on the witness stand and crossed by veteran prosecutor Ted Wilson.
